

Robert Finch

I have known Steve Cohn for many years. Steve's deep long-term experience in the finance industry and knowledge of both MOFD finances and wildfire prevention and mitigation (he has studied specifically the process of creation of wildfire protection plans and how to model wildfire risk and fuel mitigation strategies) will give him the ability to make MOFD much more effective and financially secure. The community needs to take advantage of his background in both finance and wildfire risk mitigation and I strongly recommend him for the position of MOFD Director for District 3.
