

Bill Cosden

I have known Steve Cohn for 40 years and highly recommend him for the position of MOFD Director. His knowledge of finance and wildfire prevention will serve us all. He has kept abreast of MOFD finances for 20 years and his 50 years in the finance industry will give him the ability to make MOFD more effective while retaining its long-term security. Since Orinda made wildfire prevention a priority, funded by its new sales tax, he focused his attention on this critical need. His website (Steve4MOFD.com) describes the course he took in 2023, creating a wildfire prevention plan for The Sea Ranch including modeling risk and planning fuel mitigation strategy. The community needs to take advantage of this background.
